

# Corporate Credentials

Unlock your potential and get into Direct CONTROL for Business and Clinical needs.

# Take Control

Designed for all medical disciplines, Direct CONTROL is the ultimate business management and clinical solution providing your practice with fast, affordable and effective functionality and unparalleled workflow which allows you to improve patient outcomes.

Direct CONTROL is proven to be a reliable, efficient and user friendly system. The system adheres to the typical workflow of a modern practice, from patient registration, EMR, billing through to HCP and PHDB reporting. Oculoplastic Surgery, NSW.

# Why Direct CONTROL

Incorporating comprehensive coverage of current regulations, Direct CONTROL is specifically designed to be user friendly and flexible with the synchronisation of other systems, if required. Install locally or cloud based.

Direct CONTROL allows you to focus on what you do best... patient care.

■ **Direct CONTROL is an all-inclusive business and clinical management tool that saves you time and money through improved workflows. Spend more time with patients and less time on paperwork.**

Intuitive software that revolutionises the modern day medical practice, Direct CONTROL is the business management and clinical application you have been waiting for offering both desktop and browser access to your very own dedicated SQL database.

- Maximise profitability with instant fee updates for all Medical Disciplines with Medicare, Department of Veterans Affairs, Health Funds and Work Cover schedules, per state, to include TAC and WAGMSS
- Connect seamlessly with Medicare Australia Online Billing and Eligibility Checking (Patient Claims, Bulk Billing, DVA and ECLIPSE to include In Hospital Claiming) for improved cash flow and accelerated rebate processing
- Instant financial reporting through to BAS and Profit and Loss supported with links to your accounting software including including MYOB, XERO and QuickBooks saving duplication of data entry
- Fully Functional Appointment Diary that synchronises with Microsoft Outlook and allows for shared calendars and resources. SMS and Call Centre Functionality
- Effortlessly facilitate marketing analysis and business reporting to keep your finger on the pulse of your business
- Direct CONTROL Clinical or link to other Clinical Applications of your choice
- Communication Workflow for document management (SMS, email, scan, import, word templates)
- High tech features utilising Microsoft Office, Handwriting and Speech Recognition to facilitate the 'electronic client record/paperless office'.

Ideal for both the single practitioner and multi-disciplinary practice, Direct CONTROL brings it all together into an affordable, easy to use solution.

We challenged everything we knew about anaesthetic billing when we changed over to Direct CONTROL. We restructured our work flow and the results have been remarkable. Direct CONTROL has completely changed what we do and how we do it for the better.

Anaesthetic Group of 35+, SA.

# Interoperability

Direct CONTROL is a stand-alone PAS and EMR providing interoperability with upstream and downstream applications. Unparalleled Industry Knowledge across all sectors built with input from Providers and their Staff. A business management and clinical solution meeting your needs today and into the future.

 Pharmacy  
 Non Medical  
 Veterinary Practices

Thank you! You have no idea how long I've been waiting for this. Obviously, I should have changed to Direct CONTROL long ago!  
 Psychologist, Adelaide

Control

Our Day Surgery has established a model for Medical Excellence. Direct CONTROL has become an integral partner of this model. In particular, the access to reliable technical support is, in my opinion, second to none in the field as well as being extremely good value.

Day Surgery CEO, VIC.
